cessful for fishing in State Creek

AFRAID AT MT. STERLING.—A

when Sid Winkler, who keeps a

indiscriminately with a knife. He  
cut Frank Biggers in the shoulder  
and right breast, prob'ly fatally.

took him on Thursday and left the  
parents with aching hearts and an  
overpowering sense of bereavement.  
The little fellow was at one of the  
most interesting and lovable stages  
of childhood when he put to rest.  
This was the impulse of all  
who saw him. Little Montgomery  
was aged 2½ years. The funeral  
took place Friday, interment in the

CURE FOR DIPHTHERIA.—Some  
seven years ago the Times printed a  
remedy for diphtheria patients, as  
used successfully by Dr. Fields, of  
England. By the use of this rem-  
edy, it was claimed that this phar-  
macian performed wonderful cures,  
while the patients of others were  
dropping on all sides. In this con-  
nection, the files of the Times of  
some date show that a child of  
Mr. Pat McCullough, of George-  
town, had the disease, and its life  
was despaired of; that this treat-  
ment was resorted to, and the child  
was at once relieved and recovered.

As several deaths among chil-  
dren have resulted during the past  
week from the dread disease, the

remedy is republished. It is sim-  
ple and worth a trial. As to the  
treatment adopted by Dr. Fields, a  
correspondent on lens said:

"All he took with him was pow-  
dered sulphur and a quill, and with  
these he cured every patient without  
exception. He put a table-  
spoonful of flour of limestone into  
a wineglass of water and stirred it  
with his finger instead of a spoon,  
as the sulphur does not readily  
amalgamate with water. When the  
sulphur was well mixed he gave it  
as a gargle, and in ten minutes the  
patient was out of danger. Brim-  
stone kills every species of fungus  
in man, beast and plant in a few  
minutes. Instead of spitting out  
the gargle, he recommends the  
swallowing of it.

## Owingsville Outlook.

D. S. ESTILL, Publisher.

OWINGSVILLE, KENTUCKY.

### NOW AND ALWAYS.

Dear heart, and were I lying low within  
no narrow brest,  
Uncousins of the summer-flowers and  
blue sky overspread,

At the last look, and stand still with  
no rest and desolate-stane;

And my cold hands would strive to breathe  
the music of thy name;

The solitude-sanity of love would from  
my heart be banished;

17 thy dear face were pressed upon the  
greenward over my heart;

The tangled turf and my head would  
be buried in the blossoms;

To whisper to thy bosom the secret of  
the tomb;

O, wondrous mystery of love, that over-  
passes all—

The heat and numbness of the heart, the  
shadows of the past!

I still should strive to push aside the  
deeply rooted bems;

Of grace, of his green field in twixt  
our divided home;

Or were I throng'd in heaven's light and  
the white-windmills host;

I still should look and long for thee, true-  
loves that have me none;

And from the topmost height my soul  
would beam across the bar-

To search thee, in twin-soul life, pos-  
sessed in each afar.

O, sweet is human life, I ween. It passeth  
like a breath;

But the mighty love of faithful hearts  
overset with death.

And the valley of delught would rest  
with me free-soul;

The glory of thy loving yes, the sunlight  
of thy smile,

I'd rung anthems unto God if haply  
thou mightst hear;

Me whisper, "Death divides us not but  
as man at such a moment to know who  
will intrust his life and honor, and the  
life and honor of his cause."

With the aid of the passion wine  
his ingress was easy. The interwining  
was open; the rustle of dark leaves  
on the bare bough as he entered  
and the whirr of a frightened bird by  
his ear told the story of his desolation  
and the source of the surice notes  
that had been heard there.

The down-leading to the consider was  
lightly baited, merely to keep it from  
rattling in the wind. Slipping the bolt  
with the blade of his pocketknife, he  
entered into the dark passage. The  
light streaming through the door to  
the outer court of course convinced  
him that his conjecture was right,  
and the meeting was gathered on the broad  
balconies around the patio.

He knew that a narrow gallery, feed  
with Yonathan blinds to exclude the sun,  
looked down upon them. He managed  
to gain it without discovery; luckily  
the blinds were still down. Between  
them, his shapeless, invisible, he could  
hear and see everything that occurred.

Even at that supreme moment the  
first thing that struck him was the most  
indelible contrast between the appear-  
ance of the meeting and its tre-  
mendous object.

Whether he was influenced by my  
previous boisterous conception of a cloudy  
and gloomy conspiracy, he did not  
know, but he was for an instant almost  
disconcerted by the apparent levity  
and festivity of the convale. Drapers  
and glasses stood on small tables  
before him; nearly all were drinking  
and smoking.

They comprised 15 or 20 men, some  
whose faces were familiar to him else-  
where as southern youths; a few he  
was shocked to see, were well-known  
southern demagogues.

An ill-defined consciousness came over  
him; he knew the proprietor—whatsoever  
seemed to know the Missourian, and  
this evident avoidance of him was sig-  
nificant. Perhaps his reputation as a  
doubtful unipot had preceded him, but  
this would not account for their  
conduct in a district so strongly south-  
ern in sympathy as Fair Plains.

More impressed by the occurrence  
than he cared to admit, when at last,  
after some delay, he had secured his  
horse, and was once more in the saddle,  
he kept a sharp lookout for his quan-  
dom companion.

But here another circumstance added  
to his suspicions; there was a main  
road leading to Santa Fe, the next  
town, and the rancho, and this Clarence  
had purpose taken in order to watch  
the Missourian—but there was a cut-off  
directly to the rancho known only to  
habitués of the rancho!

After a few moments rapid riding  
on a mustang much superior to any  
in the hotel stables, he was satisfied  
that the rancho must have taken  
the cut-off. But he had to his horse,  
he turned still to open his eyes to the  
rancho—if that was his destination.

As he dashed along the familiar  
road, by a strange perversity of fancy,  
instead of thinking of his purpose, he  
found himself recalling the first time  
he had ridden that way in the flush of  
his youth and hopefulness of life.

The girl-sweetheart he was then go-  
ing to rejoin—was now the wife of an-  
other: the woman who had been her  
guardian was now his own wife. He  
had accepted without a pang the young  
girl's dereliction, but it was through  
her revelation that he was now about  
to confront the dereliction of his own  
wife.

And this was the reward of his youthful  
trust and loyalty! A bitter laugh  
broke from his lips. It was part of his  
still youthful self-delusion that he be-  
lieved himself wiser and stronger for  
it.

It was quite dark when he reached  
the upper road—or first terrace of the rancho.  
He could see the white walls of the  
casa rising dimly out of the green sea  
of wild grasses, like a phantom island.

It was here that the "cut-off" joined  
the main road—now one that led  
to the casa. He was satisfied that  
no one could have preceded him from  
Fair Plains; but it was true that he  
must take precautions against his own  
discoveries.

Dismounting near a clump of willows,  
he unsaddled and unbridled his horse,  
and with the ent of the riata over its  
harness sent it flying across the field  
in the direction of a band of feeding  
mustangs, which it presently joined.  
Then keeping well in the shadow of a  
belt of scrub-oaks he skirted the long  
lesser terrace of the casa, intending to  
approach the house by way of the old  
garden and corral.

A drizzling rain, occasionally driven  
by the wind into long misty curtains-like  
waves, obscured the prospect and for-  
bade his design. He reached the low  
adobe wall of the corral in safety; look-  
ing over he could detect in spite of the  
darkness that a number of the horses  
were of alien brands, and even recog-  
nized one or two from the Santa Fe  
district.

The vague outlines of buggies and  
carriages left the long sled beside the  
stables. There was company at the  
casa—far Suzy was right.

Nevertheless, lingering still by the  
walls of the old garden, for the deepening  
of night, his nervous feverishness  
was again invaded and benumbed by  
sullen memories. There was the opening  
left by the old grille in the wall, be-  
hind which Mrs. Peyton stood on the  
morning when he thought he was leav-  
ing the rancho forever—when he had  
first clasped her in his arms, and stayed; a turn of the head, a moment's  
indcision, a single glance of a languorous  
eye, had brought this culmination.

And now he stood again before that  
ruined grille, his house and lands even  
in name, misused by a mad, scheming  
contortion, and his heart a creeping  
of his own demon.

Armed with a bitter smile again  
Suzy. A few dark Castilian  
lances forward and swayed  
over the dripping leaves. It  
was the first morning of his  
name, misused by a mad, scheming  
contortion, and his heart a creeping  
of his own demon.

**Obituary.**—Once more the pale horse and his rider have swept into our midst and took from us Mrs. Prantic Ellington. A vacant chair is left that never can be filled again. As a helpmate she always knew her duty, as a mother she was always ready to advise, as a neighbor she was always kind and affectionate, as a Christian she was always at her post. She was always ready to lend a helping hand to those in need. Mrs. Prantic Ellington was born in Morgan Co., Jan. 28, 1865, and departed this life Oct. 23, 1896. She was a daughter of John Martin and wife, and was married to Jas. T. Ellington April 9th, 1885. She united with the Christian Church under the preaching of Elder J. M. Downing, and died in that faith. We would say to her friends: Weep not for her, for we can not bring her back; but prepare to go to her where parting is no more, where God will wipe all tears from our eyes. Peace to her ashes.

**Squirrel Story.**

Jeff Hardin, farmer who lives on the River road opposite the Six-Mile island, came to the city this morning with a wagon-load of squirrels, all of which he disposed of, and in consequence the squirrel market is glutted today. Mr. Hardin killed the entire lot in a few minutes, and with a big stick at that.

He said this morning that he had a six-acre field of corn on his farm, but that during the last few weeks the squirrels had come from the neighboring woods in great droves and had all but devastated his crop.

He tried every means known to him to frighten or drive the frisky little pests away, but without avail so he finally determined to turn his cornfield into a slaughter-house.

Early this morning, before the sun had fairly gotten his sleepy face above the horizon, Mr. Hardin and his seventeen-year-old son armed themselves with sticks and moved off in the direction of the cornfield. The field is bounded on two sides by the river and on the other two by open fields. Mr. Hardin approached from one of the open sides, and his son from the other. At the sight of the farmers the squirrels leaped nimbly from the stalks and scampered off across the corn rows. Mr. Hardin and his son pursued and finally cornered them down near the river. There the slaughter took place, and for a time the field ran rivers of blood, so Mr. Hardin says.

At any rate a wagon load of squirrels were killed by the two farmers, who say that nearly as many more dodged by them or jumped into the river and were shot.

At the same time the squirrels were offered for sale on the Haymarket early this morning.
